DEDICATION:

I dedicate this report my mother Asio Ruth, my sister Igout Dorothy for being supportive to me at the course of my internship. Thereby not forgetting my field supervisor Mr. Ocen John Robert for the tireless effort and time offered to my training may the Almighty God always keep on protecting and guiding you in whatever you are doing for the wellbeing of this nation.

ACKNOWLEDGEMENT

I thank the almighty God for the gift of life and wisdom he granted to me and good health which enabled me carry out my field work activities with less difficulties and problems, Glory be to his great and Mighty name. On the same note, I do appreciate my mother and sister for their financial assistance and advice they gave to me. My field Supervisor Mr. Ocen John Robert for the words of encouragement to me that made me successful in the field work activities and the whole technical staff of Omodoi Sub County for their guidance and hospitality towards me and my colleagues.

SUMMARY OF THE REPORT

Industrial training is one of the course modules carried out by student at the end of the first year. It is aimed at empowering students with various skills in the field so as to meet their requirements and this was carried out in Omodoi Sub County from 19-06-2023 to 11-08-2023.

Industrial training is a practical module done by all courses at their respective places of attachment and the students are exposed to practical aspects in the field in form of internship and research for all. Objective of internship is to improve data collection procedures among students, to gain practical skills and experience, to improve confidence in problem solving in real work situation, to enable students learn from challenges of the work place. This report starts with introduction, background, vision, mission objectives of Omodoi Sub County. Skills gained include; meat inspection, routine examination, decision after post mortem, disposal of condemned caucus, tick control, disease investigation, deworming, animal treatment, vaccination. Recommendations conclusions and observations to Omodoi sub county and appendices which include; photos, work plan and the references.

CHAPTER ONE:

1.0 INTRODUCTION

This chapter of the report contains background, objectives of the field attachment mission and vision of Omodoi Sub County

1.1 BACKGROUND

Omodoi Sub County was established by Katakwi district local government in 2001 after being separated from Toroma Sub County which emerged way back in 1914 under the British colonialism represented by Semei Kakungulu

Omodoi Sub County is located 8km away from katakwi district main headquarters in the north east and consist of seven new parishes that operate under the sub county management and majorly the tribe of people that occupy this sub county are the Iteso that relay on subsistence farming to earn living.

1.2 aims and objectives

To provide an opportunity for the student to apply the principles and techniques theoretically learnt in class into practice

To enable a student, get on hand experience in real situations in the world of science

To provide an opportunity for a student and the academic staff to interact with the stakeholders and potential employees and employers to appreciate field situations that will generate information for consultation review and improvement

To develop a student understanding work ethics, employment demands and responsibilities

1.3vision

A modern prosperous sub county with a healthy and socio- economically empowered population.

1.4mission

To provide efficient, equitable, inclusive, affordable and sustainable public service to local population of Omodoi sub county
